OPEN ENROLLMENT

What is Open Enrollment?

Open Enrollment is an annual period of time where you are able to make changes to your coverage that you are not permitted to make throughout the rest of the year, unless you experience a qualifying event such as marriage, birth of a child, etc.

The Open Enrollment period for this year will be 10/31/2019—11/26/2019. Changes will take effect on 1/1/2020.

MEDICAL PLAN INFORMATION

Summary of Benefits and Coverage (SBC)

Understanding your health plan is important. The Summary of Benefits and Coverage (SBC) summarizes important information about your medical insurance plan in a straight-forward format to help familiarize you with your benefits. This document is accessible through the **Plan Documents Library** on the website.

Medical Plan Options Overview

Health Net HMO

- Under the Health Maintenance Organization (HMO) model, you must choose a Primary Care Physician (PCP) within the network. You can change your PCP up to once a month.
- The Primary Care Physician (PCP) will be your first point of contact when accessing care, acting as your “healthcare gatekeeper.”
- If you need to see a specialist, a referral from your PCP is required.
- The network is smaller than that of the PPO plan and there is no Out-of-Network benefit, except in the case of an emergency.
- HMO premiums, as well as the out of pocket expenses (i.e. deductible, co-payments, etc.) tend to be lower than the PPO plan option.

Health Net PPO

- The PPO plan offers much more flexibility and choice than the HMO plan because there is an ‘In-Network’ and ‘Out-of-Network’ choice at the time you seek service from a provider.
- The In-Network benefits (coinsurance, copayments, etc.) will be richer than the Out-of-Network benefits.
- At the time of service, the member has the ability to seek care from a specialist, without having to obtain a referral from a PCP.

HMO Primary Care Physician (PCP) Information

If you choose the Health Net Medical HMO plan through the GPA web site, Health Net automatically assigns you and your enrolling dependent(s) to a primary care physician (PCP). Enrolling through AYSO and UCPath allows you to designate a PCP at the time of enrollment. Once your enrollment is processed, you and your enrolled family members will receive an ID Card that will indicate the assigned PCP. If you wish to change this selection for yourself or a family member, you may do so simply by calling Health Net at 888-893-1572. Be sure to make note of the effective date of your PCP change. If you access care through the new PCP before the effective date, those services will not be covered.

WEBSITE RESOURCES

Provider Directories

For your convenience, you may begin accessing a list of providers directly from the GPA web site via the **Find a Provider** section. While you are automatically assigned a PCP under the Health Net HMO plan, you can use the directory to locate a new PCP if you wish to change. You do not need to choose a PCP for the Health Net PPO plan. To find a new HMO PCP, or a PPO provider when you wish to access service, simply follow the applicable instructions in the **Find a Provider** section of the website. Instructions for locating in-network dental and vision providers are also located in this section.

Benefit Summaries

This booklet contains benefit “snapshots” of the plans offered through the program, listing the core benefits that are most commonly utilized. There are however more detailed plan documents, including full benefit summaries, available on the website. When visiting the site, click on the **Documents Library** navigational tile. This section of the website contains benefit summaries for all plans offered through the PSBP.

Accessing Care Out-of-Network Under a PPO Plan

When you seek services *in-network*, meaning, from providers listed in the PPO network, you are paying less for services since these providers have agreed to provide services per the provider network discounts outlined in their contracts with the insurance carriers. When you pay 50% for major services in-network when seeking services from a PPO dentist, you are paying 50% of a contracted, discounted rate. This is not the case with out-of-network providers.

Out-of-Network Example: The out-of-network dentist decides to charge \$1,000 for a porcelain crown on a molar. This dentist is not prohibited from charging what he/she feels can be charged for this service. Your percentage of cost out-of-network is 50% after the \$50 deductible, and Usual, Customary and Reasonable (UCR) is considered \$800 for this service: You pay \$425. **IN ADDITION**, you owe the difference between the UCR amount and what the out-of-network dentist decided to charge you (\$1,000 - \$800), which is an additional \$200.

Total estimated cost out-of-network for the porcelain crown on a molar: \$625

What is Life and AD&D Insurance?

Basic Life insurance helps provide financial protection by promising to pay a benefit in the event of an eligible member's covered death. Basic Accidental Death and Dismemberment (AD&D) insurance may provide an additional amount in the event of a covered death or dismemberment as a result of an accident.

Additional Features

AD&D Seat Belt Benefit: Up to \$10,000 is payable for death as a result of a car accident while wearing a seat belt.

AD&D Airbag Benefit: Provides further protection in the event of a covered automobile accident for which an AD&D Seat Belt Benefit is Payable.

AD&D Family Benefits: Includes benefits for career adjustment, childcare, and higher education for eligible surviving family members.

Designating Your Beneficiary(ies)

A beneficiary is the person or people you would like your life insurance benefit to be paid to in the event of your passing. A contingent beneficiary is the person or people who you would like the benefit to be paid to in the event that all of your primary beneficiaries have predeceased the insured. Your beneficiary(ies) can and should be designated on your PSBP enrollment form.

DISABILITY PLANS

What are Short and Long-Term Disability Insurance?

These plans, offered to you through The Standard, provide you a way of protecting your income should you become disabled. Though many of us feel that we will never be disabled, almost 3 in 10 workers entering the work force today will become disabled before retiring (Social Security Administration Fact Sheet, January 31, 2007). It is important to have a vehicle to offer protection to your income, to allow you to meet your financial obligations when you are unable to work; Disability insurance does just that.

Core Benefits	Short-Term Disability (STD)
Benefit Amount	70% of your <i>pre-disability</i> earnings (\$1,000 per week maximum)
Benefit Waiting Period	0 days for an accidental injury 7 days for sickness or pregnancy
Maximum Benefit Period	180 days

! Please Note: Eligible international postdocs (job codes 3252, 3253, 3254, 3255, 3256) holding a J-1 Visa (and their J2 dependents) DO NOT need to purchase supplemental medical evacuation and repatriation coverage to meet J1 and J2 Visa requirements. The STD plan satisfies these requirements, even if the participant waives the medical, dental and vision coverage.

Core Benefits	Voluntary Long-Term Disability (LTD)*
Benefit Amount	60% of your <i>pre-disability</i> earnings (\$4,500 per month maximum)
Benefit Waiting Period	Payable after 180 days of continued disability
Maximum Benefit Period	Age 65
Pre-existing Conditions	Ailments diagnosed/treated during the 90 days prior to enrollment will not be covered until the plan has been active for 12 months.

*Plan is 100% paid by postdoc (\$8.55 per month), must enroll during your period of initial eligibility.
